The C minor Mass and the Solemn Vespers are among the finest of Mozart's choral works. The Mass, written in celebration of his marriage, is richly influenced by baroque structure and the musical language of Bach and Handel. In both works the composer's irrepressible exuberance is never far away. The Divertimento is a short early piece for strings.

Thames Philharmonic Choir, founded in 1964, is well-known for high musical standards and for the pleasure it gives to performers and audiences alike. Based in south-west London, it performs locally, in central London and elsewhere in England and Europe.
